

Raymond Recorder

VOLUME 37.

FRIDAY FEBRUARY 16, 1940

NUMBER 46.

Board Of Trade Meeting Monday

A Board of Trade meeting, open to the public, and to which the public is urgently invited, has been called for Monday night in the Town Hall at 8 p. m. If Raymond is to hold a Stampede this summer it is time the organizing work was under way. Then too, the road problems facing the district need concerted action, and the Board of Trade is the logical organization to foster this.

Present officials of the Board have expressed a desire to be relieved of their responsibility, so that an election of officers may take place and if so a thorough membership drive should be instituted to rekindle public interest in our Board of Trade, which organization holds the possibilities of unlimited achievement at strategic times when action is needed.

Keep this date open, and we'll meet you at 8 p.m. next Monday, Feb. 19th.

Big Vote At Town Hall

Raymond, on Monday witnessed one of the busiest town election days in a number of years. Commencing early in the forenoon, and until 7 p.m. when the polls closed, there were voters coming and going continually. A large number of cars too were busy hauling voters back and forth, and as the weather was mild and pleasant, a great many took advantage of this fact to vote.

J. Golden Snow, elected to the School Board, polled the highest vote of the day, rolling up a total of 409, to be followed by A. H. Zabriskie with 348. The winning candidates on the Council were Lloyd MacPhee, with 297 and Jos. McLean with 234. W. Melchum and Rulon H. Dahl The defeated candidates were T. The voting here was close, only 23 votes between the elected and the runner up. MacPhee and McLean were both seeking re-election.

In the School Board, the three high men were Golden Snow, 409; Arnold H. Zabriskie 348; H. Myron Homes, 301. Defeated candidates here were J. O. A. Stevenson, Secretary of the Board and seeking re-election, and Jack Meheew. Because of Stevenson's defeat, in the re-organization of the Board a new Secretary will be necessary. Myron Homes was re-elected, we believe to commence his fourth term on the board.

John F. Salmon was Chairman of a meeting Saturday morning, when Hon. Solon Low was present to discuss road prospects with a group assembled. For years there has been local agitation for improvements to some of our roads, and Saturday's meeting was called to make a definite plan if possible for this work. A further committee meeting was held Monday and results are hoped for as a result of these meetings.

TOWN COUNCIL MEETING

Regular meeting of the Town Council was held last night, as per schedule. The pay roll and the routine business of the Council was taken care of.

The organization of the Council following the election, as per statute, will be held next Monday night when the Committees for the year will be struck.

ADAM AND EVA WELL PRESENTED

The comedy-drama "Adam and Eva" presented by the Raymond 1st Ward Mutual Wednesday evening last at the Capitol Theatre was exceptionally well staged and was enthusiastically received by the good audience present, good, especially in view of other entertainments on.

The show was well cast, and each character gave fine portrayal of their part. Congratulations to the Mutual officers and cast, and all those connected with the show for their success in this project.

BOYS NIGHT AT ROTARY

The Rotary Dads and Lads had their annual get together Monday night, and while there was some mix up in details, all enjoyed the evening. Some of the gang attended the M Men Basketball game, and the remainder gathered at the 2nd Ward Church, where after a sing song for a few minutes, Geo. Brewerton entertained with some movies, of the Cardston Stampede and Parade.

All met at the Club Cafe, and despite mix-ups before there were none here, and the group, dads and lads enjoyed the hot dogs and pop. If there were sick boys that night it would not be surprising as they partook freely.

All Rotarians are asked to be at the Club Cafe at 11:30 sharp Monday next from which point cars will leave for Lethbridge where we are joining the Lethbridge Club in their observance of commemorating the founding of the great Rotary organization.

NEWS NOTES

Bob Graham is in the Milk River and Warner district the end of this week on business.

Shirley King arrived home from the Hospital this week after taking treatments there.

A few flakes of snow fell here Wednesday afternoon, melting as fast as they fell, but in Cardston they had a real blizzard for a few hours.

O. H. Snow and Dr. F. M. Hall were in Cardston Tuesday evening on business for the Board of Trade and District Road Committee.

The Valentine Ball of the 2nd Ward Mutual Tuesday evening last was a great success, there being a very nice crowd in attendance and everyone having a most enjoyable time.

The Special Interest group listened to Bishop Walker in its regular class on Monday and a program and refreshments brought the evening to a close.

A shower was held Wednesday evening in the 2nd Ward Church for Mrs. Floyd Larson, (nee Doris Smith.) The young bride received a lovely lot of presents from the 120 present, and will be set up in house-keeping for a long time.

Three British ships were sunk Tuesday, one torpedoed, one the result of 'enemy action' and the other from an explosion. The combined tonnage of these was nearly 21,000 tons. The same day British destroyers sank two U boats.

Jacks Maintain Home Victories

Playing a close-checking and rough game, Union Jacks pulled the fat out of the fire Wednesday night to maintain their unbroken string of victories, on their home floor this year, when they defeated the Shelby team to the tune of 31-45.

It was no push over for either team, and every point scored was worked for in real earnest. Checking was close, and the visitors constantly intercepted the long passes of the Jacks and getting the ball. The visitors had the ball more than their share of the time and only the fact that they found trouble in scoring with the Jacks swarming all over them and having to resort to long shots saved the bacon for the local team. To show how close the game was, here is the score as the clock ticked off the time. After 6 1/2 minutes of play, 5 for the visitors and 6 for the Jacks; At quarter time, 7-10 for the Jacks. At 15 minutes 7-16 for the locals; at three-quarter time 28-27 for the visitors, and it looked for a few minutes here as if the game was going to Shelby. Hicken started a rally when he dunked the ball for two points to put the Jacks one up, and then while Shelby scored three points, the Jacks went out and added 12 more to their 29 to make a 45-31 total.

The game was bitterly fought and the teams maintained a good feeling of sportsmanship, despite their disagreement with some decisions. Visiting teams play under a handicap when they come here, the same as our boys do when they visit in Montana. Some of the foul rules are a little different, there is a difference in the construction of the banks above the basket, and so on. The play as fast and as close checking game as was played here leaves but one conclusion and that is the two teams are decidedly evenly matched and would make a good game any time they met. A good crowd considering other attractions was present.

Following is the lineup and score:
SHELBY: Middlesworth, 5; Talbot, 2; Rosenberger; Persha 11; Williamson, 4; Davis; Bashear, 9; Melvanko; Mignault. Total 31.

JACKS: Nalder, 10; Hicken, 15, high scorer of the game; Nilsson, 3; Turner, 6; Dunlop, 8; Stone, 2; Galbath; Walker, 1. Total 45.

Boothe and Wilson had the whistles for the game. In a good preliminary, the 1st Ward M Men defeated the 1st Ward High School by a ed three points, the Jacks went out and added 12 more to their 29 to make a 45-31 total.

The game was bitterly fought and the teams maintained a good feeling of sportsmanship, despite their disagreement with some decisions. Visiting teams play under a handicap when they come here, the same as our boys do when they visit in Montana. Some of the foul rules are a little different, there is a difference in the construction of the banks above the basket, and so on. The play as fast and as close checking game as was played here leaves but one conclusion and that is the two teams are decidedly evenly matched and would make a good game any time they met. A good crowd considering other attractions was present.

Independents Endorse Jas. H. Walker

In the redistribution program of the Alberta government since last election, the boundaries of the Warner constituency had been altered some, by taking off about seven townships on the east and putting them in a new riding, and adding about the same number on the north, near Coaldale. This put some new voters in our constituency.

To start the ball rolling for the Provincial election, representatives of the Warner riding were invited to a meeting Saturday afternoon to organize for the campaign and J. W. Evans, chairman of the Executive committee since it was formed in 1937, took the chair.

The situation was discussed pro and con, several motions suggested and withdrawn until finally a motion was passed unanimously to the effect that representatives of the Warner constituency as at present constituted unanimously endorse the candidacy of J. H. Walker, Independent, for the coming Provincial election. This was carried with a volley of applause.

J. H. Walker, in a few brief remarks expressed his appreciation of the confidence expressed in him. He affirmed his absolute independence and his determination, if elected, to give his best to serving the people. He felt that the Province should work with the Dominion and not against it. Referring to provincial affairs, it was his opinion that we had men in the Province capable of running our affairs without going to foreign countries to import them, and if we didn't have them there was something wrong with our system. The people should stand for and maintain liberty and democracy. A motion was then passed that we rescind any resolutions

of the 1937 convention that might tend in any way to interfere with the entire independence of our candidate. This carried unanimously.

Necessary changes were then made in the list of representatives from the various points of the district, removing some and adding others, and the meeting adjourned in perfect harmony and full of enthusiasm.

WEDDING BELLS

CHRISTENSEN — WITBECK

The wedding was solemnized last Saturday at the home of Pres. A. E. Palmer, Lethbridge of Leonard, youngest son of P. J. Christensen, and Miss Maxine daughter of Mrs. Arch Witbeck, both of Raymond. Mr. and Mrs. Willis Christensen attended the young couple.

Both young people are well known in Raymond and have the best wishes of their many friends for a long and happy married life. They will make their home in Raymond, and will reside in the Jeffrey home which Leonard recently purchased.

SUDO — JENSEN

Another wedding of last week was that of Ceston Sudo and Dorothy Jensen, daughter of Mr. and Mrs. Alfred Jensen, who were married in Lethbridge. While we are lacking in details, we extend to these young people, with their many friends, our best wishes for a long and happy married life. They will reside in Raymond where the groom is engaged in farming.

S. C. N. Grey has been in the Lethbridge Hospital for the past week under the doctor's care.

Social Crediters In Convention

CHECK THE VOTERS LIST

Copies of the Voter's List, compiled by the Enumerators for the forthcoming Federal Election next month are now hanging in the Town Hall. If you have a vote, and your name is not on the list, the Enumerators will be in attendance at the Town Hall on Tuesday, March 12th, and if you have proof of your eligibility to vote, your name may then be added.

This is to give every citizen of Canada who has a franchise the opportunity of using it and expressing their choice in the matter of who shall govern the country.

Remember the date, Tuesday March 12th. Frank Shaw, Floyd Lamb and Ken Hague were the local enumerators.

Lord Tweedsmuir Passes

The hearts of Canadians from east to west were saddened Sunday afternoon when word was flashed over the radio that His Excellency Lord Tweedsmuir, Governor-General of Canada had passed away at a Montreal hospital, following a fainting spell in Government House, Ottawa, when he fell and apparently struck his head on the bath tub. Concussion followed, and despite three emergency operations by Canadian and best doctors he slowly weakened and died with Lady Tweedsmuir at his bedside.

A man of outstanding accomplishments as a writer he had won fame for himself and was acknowledged everywhere. His five years in Canada as Governor-General were marked with success, revealing a decided attention to duty, and a real desire to know the Canadian people and their problems. His passing ended a brilliant career. Funeral services were held in Ottawa Wednesday afternoon at 2 p.m. with full military honors and in respect to the memory of the Governor General all government offices and schools had a half-holiday and the Alberta legislature did not sit at all that day.

We, of the west remember well the visit of this gracious Lord and Lady in our midst and will long cherish the memory of our meeting them. As the poet says, "Acts of great men all remind us, We may make our lives sublime; And departing, leave behind us, Foot prints on the sands of time."

Such was the life just ended. In his personal contacts and conversation and in his writings, he has left a monument that will endure for ages.

NEWS NOTES

Lee Brewerton arrived home Tuesday night from his recent trip to Salt Lake.

Taking advantage of the half holiday, Wednesday, in honor of the late Governor-General a number of our local school teachers were at the Cardston Temple for the afternoon and evening sessions.

Hyrum Fremm and Stan. Ben nett left Salt Lake City on their return journey Thursday of this week. The roads were so blocked with snow that they had to go south as far as Salt Lake before they could get north to the boundary.

Saturday last the Nominating Convention of the Warner constituency Social Credit Group was held in Raymond. In attendance at the gatherings were Hon. Solon Low, Provincial Treasurer, and John Blackmore leader of the Social Credit group in the federal house.

At noon the local group played hosts to the delegates and visitors from out of town at a luncheon in the 2nd Ward Church, where A. W. Jones local group president was in charge. After the luncheon the meeting adjourned to the High School. Between 50 and 60 were present at the luncheon.

The Nominating Convention got under way shortly after 2 p.m. with J. W. Carr of Warner Constituency president in the chair. Thirteen delegates were present, and the names of Solon Low, present member E. E. Russian of Twin River and W. V. Spackman of Stirling were selected to be placed before the Advisory Council where the final choice will be made.

The three spoke briefly, expressing their pleasure at being chosen, the latter two stating they only allowed their names to be used to comply with the constitution and expressing the hope that Mr. Low would be chosen. Mr. Low thanked the group for their support of his efforts during the past term, and if elected pledged his best efforts in the future.

A public meeting followed and John H. Blackmore and Hon. Solon Low were the best speakers here, the former speaking on the technique and workings of Social Credit in the Dominion, and affirming that the Social Credit platform held the only key to the solution of our national problems.

In his talk Mr. Low referred to statistics and figures circulated by the opposition and explained the increase in some of the public accounts. He said that a copy of the public accounts of the province would be placed in the Public Library where all who are interested may examine them. Referring to the charge by the opposition of the refunding plan of the Public debt, he stated that this was merely an option which had expired some time ago, but stated that efforts were under way now for a plan to refund this debt. About 100 were in attendance when the meeting adjourned.

Ross and DeMoy Nilsson are on their way home with two new Hudsons from the Ontario factory of this plant. They are expected home in about one week.

TRUCK AND RUNABOUT COLLIDE

The runabout of J. E. Meeks and the truck of Paul Redd were in a collision this morning at the C. W. Selman intersection, just before nine o'clock.

Teddy Meeks was on his way to the school, taking his little girl, and apparently Paul was going west from Broadway. The impact wrecked the front of the runabout completely, pushing the engine back so that it put the transmission out of commission and breaking all the oil lines on the car. We haven't seen the Redd truck yet, but the sad appearance of the runabout proves that more care should be used when approaching intersections.

Fortunately no one was injured, but all were frightened badly and shaken up.

BETTER ROADS NEEDED

In a very few words, we want better roads, to pay more gas tax, to build better roads, and more gas tax to build more of them. That's about the circle and it is a fact.

We need, and we feel that we are entitled to more and better roads. The road put up between here and Stirling last year under the arrangement between the Municipality and the Provincial Government is a very fine piece of road. Last Sunday morning, after the snow flurry of Saturday night, this road to Stirling was free of drifts, much of the snow had blown off, and it was really a good road. Better in fact than the Sunshine Trail from Stirling to New Dayton, which in many places was drifted until one had to keep to the worn tracks or else.

Our branch road from Welling to Raymond, connecting with the highway at Welling Junction, could stand improvement. We congratulate the Municipality on the road they have provided and continue to maintain. This road is subjected to a tremendous amount of heavy traffic in good and bad weather under favorable and unfavorable conditions, and it has stood well. Now, however, it is not in very good shape. The Municipality hesitates to

spend a big sum on this leg, still hopeful with the rest of us, that someday this road will at least be made secondary highway and taken over and maintained by the Provincial government. Would it be possible for some plan to be worked out between the Government and the Municipality to take care of this road. It should be wider. Travellers from here to Lethbridge and Cardston, have remarked frequently that any time of the day or night, you will pass cars on this Raymond to Welling road. Sugar, going to Lethbridge distributors, beet pulp and molasses to feeders west and in other towns, transport and drayage loads, coal in seven and eight ton loads, all negotiate this road. Would representative presentation of it's necessity assist in getting the Province to offer some sort of assistance to the Municipality in its improvement and upkeep.

We hope someday, if we live to be old enough, to see this piece of road be a part of a main highway. In the meantime, would there be any advantage in a joint agreement being made, to increase the width of the grade another four feet, raise the low places, and put it into shape so that if the unexpected should happen, the required grade would be there for surfacing. It might be considered at least.

Mr. and Mrs. Ivan Wilde, Mrs. Emma Dahl, Mrs. Maybelle Anderson, Miss Alice Snow, Jos. McLean and S. I. May filled a missionary appointment to the Tyrell's Lake and Warner branches on Sunday. They report a very pleasant trip with very little snow east of New Dayton the roads being entirely bare when returning just after noon.

LIFE

By Dr. M.M. Lappin

Today I quote from an interesting letter written by a sensible young woman. She writes "I have been keeping company with a young man for several years. We are very fond of each other and I am sure we could be extremely happy together. He has often spoken of marriage, but I hesitate. At last I have promised to marry him, because my mother has been in mistake. I am afraid of marriage but I think I may have made a mental hospital for the past five years, and I sometimes think her trouble may be hereditary. He knows all about it and says it makes no difference to him, but that does not ease my mind."

You are to be admired for your wise forethought. You reveal a highly developed social consciousness. But I think you are worrying unduly. All inmates of mental hospitals are not suffering from hereditary forms of insanity. Many have simply become unhinged as the result of undue strain and worry.

You should find out the exact nature of your mother's trouble. A talk with your family physician may give you the assurance you need. If he cannot satisfy your mind, ask him to arrange for an interview with the superintendent doctor in the institution in which your mother is a patient, and he will be able to tell from the case history whether or not the affliction is hereditary. If it is not, then your mind will be at ease.

Even if you discover it is hereditary, that does not mean your headed for the same thing. We only inherit tendencies and tendencies can be overcome. Take care of yourself. Look after your health. Keep cheerful and optimistic. Avoid worry and fear and I have no doubt but that everything will turn out all right for you.

The young man whom you have promised to marry, knows all about your mother's trouble and is still willing to marry you. If you discover that the trouble is hereditary and you might possibly become afflicted—which I think is most unlikely—then you could agree to marry and, if you are both fond of children, you could perhaps

LUSCIOUS APRICOTS GROWN ON THE PRAIRIE

Nowhere is the work of the Canadian agricultural scientist seen to better advantage than in the work of the Dominion Experimental Farm Service through out Canada, in the production of new grains and in the evolution of fruits that grow where garden fruit had never grown before.

Among the prairie centres of science specializing in fruit production is the Dominion Experimental Station at Morden, Man., where 200 acres of garden land include 100 acres of fruit. In addition to that which has been done before there are more than 10,000 seedling apple trees and 2,000 seedling plums, cherries, grapes and apricots ready to bear fruit in 1940. The apricot by the way, is now established as a dependable prairie fruit crop. At one time it was considered an impossibility to grow such a sensitive fruit on the prairies. Also, at the Dominion Station at Rosthern, Sask., where the testing of fruit trees and bushes capable of being grown on the prairies has been carried on for the past 30 years over 10,000 seedling apples, and 2,000 seedling plums, cherries, apricots and grapes have been planted, making a total of over 40,000 planted from 1935 to 1938. In short, fruit production is an important part of the work of several of the Dominion Experimental Farms on the prairies, and their united work in making fruit grow where none had grown before has already proved of great advantage.

arrange to adopt a child.

The one thing you must guard against is worry or fear. N. B. What is your problem? Address all communications to Dr. M. M. Lappin, 501 Ryrie Building, Toronto Ontario.

LIBRARY NOTES

During the month of January in 1940, 1639 books were loaned as compared with 1103, in the reading room.

January last year. February 12, 98 people used 1,040 readers used the reading room during the month of January this year.

7 new members joined the Library, during January, of these 3 were adults having never been a member of any Library or reading group.

Interesting books in the public Library.

"The Forsythe Saga"; "A Modern Comedy"; "Maid in Waiting"; "Flowering Wilderness"; "Over the River." by Galsworthy.

"Rogue Herries"; "Indith Paris"; "The Fortress"; "Vanessa"; by Walpole.

EXPERIMENTAL STATION, LETHBRIDGE

WEEKLY LETTER

Mineral Requirements of Hogs

A number of inquiries regarding the feeding of hogs have been received recently at the Lethbridge Experimental Station and most of them have indicated an interest in the question of mineral feeding. While no single mineral mixture can be recommended to suit all conditions it has been felt that a brief discussion of the mineral requirements of hogs in general might prove useful to our readers.

The pig is an omnivorous animal and thus requires less salt than the strictly vegetable-eating animals. The inclusion of one-half to one per cent of salt in the grain ration will meet the requirements for this mineral. Iodine deficiency, a condition which causes hairlessness in new-born pigs, is found in some areas. By dissolving one ounce of potassium iodide in a gallon of water and giving a tablespoon 3 or 4 times a week to each pregnant sow the danger may be avoided.

Pigs develop at a very rapid rate compared to other livestock and consequently have a heavy demand for the bone-building elements of calcium & phosphorus. Cereal grains are well supplied with phosphorus but deficient in calcium so that this latter element must be supplied by other means.

When a protein supplement which is high in calcium such as skim milk at the rate of 1 to 3 pounds to a pound of grain or tankage at rates up to 10 p.c. of the grain ration for weaning pigs are not fed, it is essential that calcium be supplied in a mineral mixture. Where slack coal is cheap, a mixture may be made up as follows:

Slack coal 76 pound. Salt 20 pounds. Ground limestone or air-slacked lime 3 pounds. Sulphur 1 pound.

Phone 25734.

The pigs should have free access to the mixture at all times. Another simple mixture which may be used where it is desired to mix minerals with the feed is to use 1 pound of ground limestone and one pound of salt for each 100 pounds of grain mixture. When milk or tankage is fed half these amounts will suffice.

Sows' milk is low in iron content so that suckling pigs must be supplied with this mineral by the time they are a week old. In recent years it has been found that individual feeding of little pigs with reduced iron or granular iron sulphate is effective in preventing anemia. Commencing when the pigs are one week of age doses administered by placing a small amount on the tongue of each pig with a mustard spoon should be continued twice weekly until the pigs are four weeks old. If sows, which are a natural source of iron, are available to put in the pen, they should be sprinkled with a solution of iron sulphate prepared by dissolving a teaspoonful of iron sulphate in a quart of water. The sows should be placed in a creep away from the sow and renewed twice a week.

E. A. Howes, who has been dean of agriculture at the University of Alberta since 1915, passed away Friday night at the age of 67. He has been a teacher since 1890, and in his passing Alberta has lost a man who achieved national fame in his profession.

The T. Eaton store at Lethbridge was robbed of \$1,000 in silver besides watches, rings and other articles, in a robbery which occurred between midnight Saturday and 7 p.m. Sunday, when E. Davis, manager of the store discovered the theft. Entrance was made through a wire glass skylight.

Edmonton Letter

(By T. B. Windross)

Edmonton, Feb. 12—Alberta's government is continuing this week to slip hurriedly through the session of the legislature to get it out by the end of the week.

The government's strategy depends on closing out the session by this Saturday, or by next Tuesday at the latest, if possible, so as to get the election date set for March 21 with out being forced to make any move so obviously "strategic" as to change the rules of the game for itself by reducing the present legal minimum time of 30 days for notice of election.

Because there is convincing evidence that most, if not all, of the Social Credit federal representation will be wiped out if the provincial government can't rush to the polls first and because the chief plank in the Aberhart campaign platform for the past three years has been its cries against the federal government—and that plank would have to be discarded as soon as the federal government is either re-elected by the mandate of all Canada or replaced by a new government—the whole Social Credit party strategy within Alberta depends on getting to the polls before the federal election is held March 26. So March 21 is the provincial date planned.

Therefore, unless the opposition members in the Alberta house can succeed in keeping the legislature together in order to pass needed general legislation, discuss the state of affairs in Alberta generally, and give thought to how the government spent about \$25,000,000 last year the legislature will be wound up and dissolved within the next few days.

The 14 Alberta members who have been sitting in the house of commons since 1935 as Social Crediters and who want to be re-elected have their own embarrassing problem—the question of what their party will be when they ask for votes. For the past year they had thought that they would be "New Democrats"—followers of a new banner which they helped Hon. W. D. Herridge to unfurl last year. But to their great surprise they had heard nothing at all from Mr. Herridge up to the week end, since the federal election was called. They only read in the papers that he would be coming out to Kindersley, Sask., to campaign for election in the seat which a Social member resigned for him last autumn; they also read that he had no plans for coming to Alberta.

Last week three days of the legislature saw remarkable documents presented beginning with the speech from the throne which ran to more than 3,000 words. The speech was full of glowing tributes to the government, giving it the credit for just about everything except the football record of the Edmonton Eskimos, but including Alberta farmers' prize-winning in competitions. The government wanted to have the speech broadcast from the legislature, but Hon. J. C. Bowen refused to permit such politics.

Then Conservative Leader D. M. Duggan revealed a striking document—the text of an amazing and involved agreement by which the government had appointed a man named J. J. Sousa of Calgary, a former sales man of household appliances, to undertake refunding of Alberta's \$150,000,000 provincial debt.

A few days earlier another astonishing agreement between the government and Mr. Sousa had been revealed; it was a letter written to Mr. Sousa by Premier Aberhart providing for the Calgary "financier" to arrange financing of \$5,000,000 for the government to start a provincial bank. The government was to issue \$5,000,000 worth of new provincial bonds in return for the financing. Then, after the government had obtained the license for the bank and got it started, if it decides to operate the bank itself, the government would be prepared to take steps to "place you or your nominees in a position to take over and operate the bank," the premier told Mr. Sousa in that letter which was written in the premier's office May 1, 1938.

A third side to the strange negotiations between the government and Mr. Sousa was revealed to concern a purported plan for construction of an Alberta highway to Alaska—the route over which Public Works Minister W. A. Fallow said recently he would stake his reputation on a highway being built. Confronted with publication of his letter to Mr. Sousa, Premier Aberhart said that the bank proposal was in connection with the refunding idea and the highway proposition, although there was no mention of either of them in the letter itself.

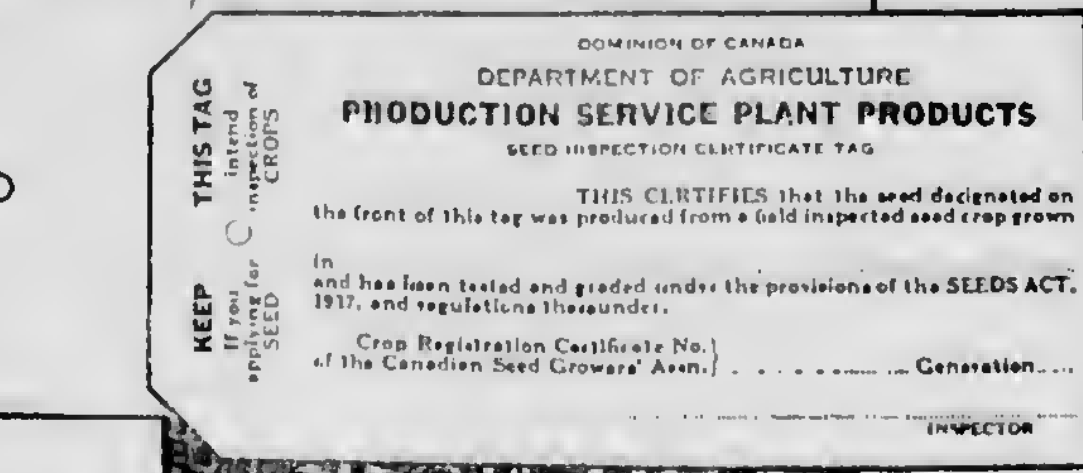

Mr. Sousa and one J. H. Reed of Los Angeles, have received personal grants for "expenses" from the government, however the most recent to become known was one for an unspecified amount up to several hundred dollars last autumn to Mr. Sousa as expenses for a trip to New York and Washington.

The refunding agreement, which had been signed by Premier Aberhart and Provincial Treasurer Low came as a surprise when Mr. Duggan produced it; the government had kept it a secret since it was drawn up in May of 1938. Mr. Duggan described it as "clumsy, silly, and a wild goose chase," and businessmen outside the house said that the text just did not make business sense. It expired a year ago, but the Provincial Treasurer objected when Mr. Duggan said the proposal had failed. "He does not know that we have failed," he said.

The government voted solidly against an investigation into the agriculture, trade and industry, and attorney-general's department Saturday after E. L. Gray, Liberal Leader, had made sweeping and specific charges alleging "a ring of petty theft and graft" in the agriculture department with "collusion" among officials of the department.

He charged that horses from suddenly, in valuation from \$4-ure that had been sold ostensibly for fox-feed turned up later on the farm of a friend of Hon. D. B. Mullen, and that the same man was active in re-organization of a fox farm which leased the provincial school of agriculture to \$16,000 and got a \$10,000 loan from the government.

Mr. Mullen and Provincial Secretary Manning stood up to defend themselves with explanations of the deal. Mr. Manning declaring the money was amply protected. Mr. Mullen said he would welcome an investigation into the whole situation. But when Mr. Gray asked for an investigation, Mr. Mullen joined the rest of the government in voting against it.

NOW IS THE TIME TO **BUY**
REGISTERED
SEED

SUPPLIES of Registered Seed are rapidly growing less through feeding and sale through the grain trade, particularly rust-resistant varieties of wheat and oats. Order supplies now for spring planting.

Registered Seed is pure as to variety. It therefore gives better returns in yield, quality and grade. It requires no cleaning. Registered Seed is sold only in sealed containers, government-tagged and government-inspected.

Buy Registered Seed!

For information regarding sources of supply of approved varieties write to—the District Supervisor, Plant Products Division of the Dominion Department of Agriculture for your district, the nearest Dominion Experimental Farm, the Provincial Department of Agriculture, or the nearest Agricultural College.

Food supplies are important in wartime—

This year, plant and raise only the best!

A New Valuable TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic 10 years series of tests they have proved that most children improve grades as much as 14% when using a portable typewriter.

An unexpected out come was that, in addition to better results in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students.

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get. On a small deposit, and terms as low as 10c a day, will bring you the Remington Rand portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. See 2 for Free Booklet.

FREE! 32-PAGE TOUCH METHOD INSTRUCTION BOOK

with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

NEWS NOTES

C. F. Tollestrup was a business visitor in Lethbridge on Monday.

J. W. Evans was indisposed over the week-end and was confined to the house most of the time.

Eggs are one of the easiest foods to cook and their combining ability makes them almost as universally used as salt and water.

Flags were at half mast throughout the town the first part of the week in honor of the passing Sunday evening of Lord Tweedsmuir, Governor-General of Canada.

Mr. and Mrs. W. L. Jones spent the week-end in Staveland with relatives. During Warren's absence, the Town office was renovated by S.B. Smith.

A wet snowfall for two or three hours Saturday evening left a blanket of about four inches of snow on the ground. A few miles east, being lighter, some drifting took place while the snow fell.

On Thursday Finland called all men from 42 to 44 to the colors to aid in the resistance of the Finns against Russia. The Mannerheim line remains unbroken, although some of the front line forces have retreated from their positions in advance of the Mannerheim line proper.

In a hockey game played Wednesday evening after the basketball game, Raymond defeated the Warner team by a 4-3 score. The ice was a bit soft and heavy, but the fans present enjoyed the game, and the teams were quite evenly matched.

NEWS NOTES

A blizzard over the north-eastern States on Wednesday took a toll of 20 lives and crippled communication lines and highways, before it headed on to the Atlantic on Thursday, and gave promise of clearing weather.

In a bitterly fought basketball game here Monday evening Stirling M Men defeated the Raymond 1st Ward team by a score 30-36. The Stirling boys put on a great display of basketball and the 1st Ward boys were battling all the time but didn't have the smiles of lady luck with them.

Mayor Tanner of Magrath and President of the Golden Fleece Woolen Mills, of Magrath, with Messrs Strang, Bigelow and Dudley, was a Raymond visitor Monday. He stated that the mill was now operating night and day and employing between 45 and 50 people. \$400 worth of goods being shipped daily, including regular shipments of the army blankets ordered by the Dominion Govt.

The Jacks are leaving next Thursday to take part in the Montana State Basketball Tournament in Lewiston, having been invited to participate. Along with the hopes of winning, in at least some of their games, they hope to meet other teams and arrange for further exhibition games here for coming weeks. We wish them success.

Speakers at the 2nd Ward Sacrament meeting Sunday evening were Paul Fairbanks, representing the Missionary class, and Elders Brandley Hardy and Oler from Stirling filling a home missionary appointment held over from last month. Musical numbers were a song from the Primary, a Relief Society chorus and vocal duet by Misses Redd and Allen with Miss Margaret Allen at the piano. A very interesting meeting was held.

The courageous Finns are still resisting strong Russian attacks thrown at the Mannerheim line, for more than two weeks past. The loss of men and material on the part of the Red army has been terrific, but more has been steadily sent up to replace it. The world is wondering now just how long the Finns can hold out. The Red officials apparently realize that spring will write fins to any use of their mechanized units, and they are throwing all their energy into cutting through the famous line before that time arrives.

The Jacks journeyed to Sunburst, Montana, Saturday night for an exhibition basketball game and defeated the Sunburst team by a score of 45-36 in an interesting game.

The Book Lover's Score met at the home of Mrs. Hamp Witbeck Wednesday afternoon with 16 members and 7 visitors present. Mrs. Godfrey Holmes gave an interesting review of the Biography of Jack London. Lunch was served by the hostess Mrs. H. Nalder, and a very enjoyable afternoon was enjoyed by all present.

Eggs are ideal as the main dish item around which dinners and suppers, as well as breakfasts and lunches, may be planned.

At the organization of St. Mary's School district last week N.W. Peterson of Welling, one of the five trustees of the district was named vice-chairman.

Valuable as eggs are as a source of proteins and mineral salts, their richness in a number of vitamins necessary for health and growth emphasizes their high rank among the protective foods.
